Hi Janice,

CES has claimed these figures as confidential business information. We are unauthorized to send you these figures directly. However, we will check with our office of regional counsel to see if/how we can share the figures with the state – will let you know.

Regards,
Calvin

Hi Calvin – Hope all is well.

We have started reviewing the Mendota Class VI permit application and have noticed some of the figures are missing – and in their place it states that the image will be sent directly to the EPA. This appears to be for Figures 14-20 (seismic lines), 32&33 (porosity maps, x-sects) and Figure 45 (USDW estimation from resistivity logs).

Can we get copies of these figures?

Thank you!
Janice

EXTERNAL:

Hi Casey,

The CalGEM folks were able to access the folder. Let me share it again. If that's still not working, we need to use another way, for example, you may share me a folder for uploading the files.

Thanks,
Calvin

Calvin

I still do not have access the the link. I am not sure if it is on my end or your end. We would like to review these documents, so I am hoping we can get me access.
casey.scott@waterboards.ca.gov

thanks
Casey

Casey, please try it again at a later time. We recently experience technical difficult with OneDrive while we are working from home.
